February 13, 2003

Mr. Christopher A. Whyrick
Reports Analyst
Federal Election Commission
Washington, DC 20463

Dear Mr. Whyrick:

This letter is in response to your letter dated January 14, 2003 regarding the Turner for Congress campaign committee's 30 Day Post-General Election Report.

Your letter referenced the campaign's compliance with the "best efforts" to provide contributor information.

The Turner for Congress Campaign has fully complied with the "best efforts" provision. As required by federal law, the original solicitation includes a clear and conspicuous request for the contributor information and informs contributors of the requirements of Federal Law for the reporting of such information. If the information is not provided, the campaign then sends out a request in writing within two weeks of the receipt of the contribution which clearly asks for the missing information without soliciting a contribution; informs the contributor of the requirements of federal law for the reporting of such information; and provides a pre-addressed return envelope.

I sent sample solicitation letters and follow up requests to your office on 2/3/03 for your files.

Your letter also referenced a contribution that was omitted from the Committee's 48 hour notice filings. This contribution, from the Bayou Leader PAC, was in fact inadvertently omitted from our 48-hour notice. This mistake occurred because of a data entry error when the date of the contribution was originally input into our system. The mistake was discovered and corrected when the Post-General report was filed.

Please be assured that the Turner for Congress Committee takes great care to comply with Federal Election law. I apologize for the mistake and assure you that this is an isolated incident and will not happen again.

Please do not hesitate to call me at 614/529-8902 if you have any further questions.

Thank you,

A handwritten signature in cursive script that reads 'Natalie Barr'.
